Claim Rejections - 35 USC § 112

Claims 11-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- i) It is suggested to replace the term “pyrazolopyrimidine” in the first lines of the claims by “compound.”
- ii) The term “substituted” without saying which substituents are intended is indefinite. One skilled in the art cannot say which substituents are permitted and which ones are not.
- iii) The term “cycloalkyl” is indefinite because it is not known how many atoms make up the ring and what kind of a ring is intended (monocyclic, bicyclic, spiro, fused, bridged, saturated, etc.).
- iv) The term “heterocyclyl” is indefinite because it is not known how many atoms make up the ring, which atoms are present and what kind of a ring (monocyclic, bicyclic, spiro, fused, bridged, saturated, etc.) is intended. The ring formed by R¹ and R² together is unclear.
- iv) In claims 16-19, the host is unclear. The specification appears to have these compounds work on plants but the claims embrace animals as well. Appropriate correction is required.
